

Supervising Clinical Mental Health Providers

A Discussion with Community Supervisors

Friday, April 21, 2023 from 12-1:30 PM

Clinical supervisors play a key role in supporting and sustaining the behavioral health workforce, ensuring clinical competency, and mitigating clinician burnout. Yet, they often find themselves without sufficient guidance and support. This webinar assembles a panel of experienced community-based supervisors to bring to life the recently published resource, "Supervising Clinical Mental Health Providers." For more information about the presenters, please click here!

Highlights will include:

- Review of supervision best practices
- Real world supervision scenarios
- Opportunities for Q &A with the audience
