

March 17, 2022 | 1:00-3:00pm | Zoom

GOALS

1. Continue connection work thru partner showcases.
2. Continue conversation of Collaborative work in review & 2022 planning.

AGENDA

PEOPLE ACKNOWLEDGEMENT

Every community owes its existence and vitality to generations from around the world who contributed their hopes, dreams, and energy to making the history that led to this moment. Some were brought here against their will, some were drawn to leave their distant homes in hope of a better life, and some have lived on this land since time immemorial.

Truth and acknowledgment are critical to building mutual respect and connection across all barriers of heritage and difference, so we begin this meeting acknowledging that we are on the ancestral lands of the Spokane Tribe of Indians and other tribes who are connected through a shared history of trade, celebration, and resources.

We make this acknowledgment to pay respects to their elders, past and present, whose knowledge remains on the land. Please take a moment to consider the many legacies of violence, displacement, migration, and settlement that bring us together here today. And please join us in continuing to learn about such truths and actions we can take towards restorative justice.
