

Dear Better Health Together,

We hope this letter finds you well. We are writing to express our deepest gratitude as students in the Integrated Behavioral Health program. Your recent decision to fully cover our tuition for the remainder of the bachelor's program has left us speechless and profoundly grateful.

As one of the fortunate recipients of your generosity, I cannot adequately convey the weight of relief and joy that your support has brought into our lives. The journey through school these past few years has been marked with numerous challenges, not the least of which includes financial strain. This generous award has not only alleviated the burden of tuition costs but has also provided us with the assurance and encouragement we need to continue pursuing this wonderful opportunity. This doesn't just benefit us, the students, but also the community.

Your belief in our potential and dedication to empowering students like us is commendable and deeply appreciated. It is not lost to us the immense impact your contribution will have on our lives, both now and in the years to come. With your support, we are equipped to focus wholeheartedly on our studies, seize every learning opportunity, and strive for excellence in our academic pursuits.

Please accept our sincere thanks for your support and belief in our professional endeavors. Your generosity serves as a reminder of what can happen when individuals and organizations come together, or "integrate", to uplift and empower our community.

We pledge to honor your investment by working diligently towards our academic goals and paying forward the kindness and support we have received.

With heartfelt appreciation,

IBH Student Council:
